

Feb 26, 2021	Honey bee habitat attracts other animals	
Overview	Notes	
<p>While watching: What animals are observed in the Wild Flower Bee farm? What is the cat that shows up at the end? There are several predators the honey bees have to deal with, what are other predators? Have you come across any yourself?</p> <p>You can respond to the question in the video on YouTube or Instagram.</p> <p>Extending question: What are some of your favourite animals? Draw or sketch your favourite.</p> <p>Honey bee predator support: https://sciencing.com/predators-honeybee-8151103.html</p>
