

August 12, 2021	<b>Bees getting ready for final nectar and pollen</b>	
<b>Overview</b>	<b>Notes</b>	
<p>Watch this video from Wildflower Bee Farm: <a href="https://youtu.be/KLdYY8-VMxw">https://youtu.be/KLdYY8-VMxw</a></p> <p>While watching: Study the behaviour of the rookie bees. Is the hive too crowded?</p> <p>Today's goal: Learn about how young bees learn how to fly. How do bee keepers know they have a thriving hive? What is an orientation flight?</p> <p>Further research:</p> <p>Thriving hive - <a href="https://www.hobbyfarms.com/5-signs-of-a-healthy-hive-2/">https://www.hobbyfarms.com/5-signs-of-a-healthy-hive-2/</a></p> <p>How bees fly - <a href="https://youtu.be/KuYCbQOURT4">https://youtu.be/KuYCbQOURT4</a></p> <p>Orientation flight - <a href="https://www.theapiarist.org/orientation-flights/">https://www.theapiarist.org/orientation-flights/</a></p>
